Universal Power Group (UPG) is the world leader in batteries and many other power products. They specialize in Sealed Lead Acid (Both AGM and Gel), Alkaline, Super Heavy duty and Industrial, Lithium, Silver Oxide, Carbon-Zinc, Nickel Cadmium, and Nickel Metal Hydride Batteries. On top of their vast battery product lines they offer Power and Cell Phone Accessories as well as security products. Chances are that you are already using UPG for your battery needs and don't even realize it. Give us a call and we will show you how to get away from rebranded products, save you money, and keep the quality you know and trust.

Since 1956, NANMAC Corporation has been a leader in temperature measurement and control technology for industrial and research applications. They have worked cooperatively with their partners and clients alike to provide the highest performance custom thermocouples and other hardware related to temperature measurement.

McLean offers today's most rugged, industrial rated cooling solutions in the market. Their offerings range from Indoor and Outdoor Air Conditioners to Heat Exchangers, Fans, Blowers, Impellers, Filter Fan Packages and even Custom Solutions. Reduce your downtime and extend the life of your valuable electronics. Call us and we'll do the rest!

Integra offers Non-Metallic Polycarbonate enclosures for any environment. They are more impact and UV resistant than Fiberglass, are much more easily modified, and offer NEMA ratings 4x, 6P, 12, and 13. Hinged products feature a snap on cover and hinge that are 100% non-metallic and provide a 225 Degree door swing. All products are UL Listed and RoHs Compliant.
